

# Contents

<b>1. Background</b> .....	<b>1</b>
<b>2. Introduction</b> .....	<b>3</b>
<b>3. Energy Charter, Energy Strategies, Energy Directives, Energy Laws</b> .....	<b>5</b>
3.1. Energy Charter process .....	6
3.2. European Energy strategy in liberalized energy market – focus on trading .....	8
3.3. Aims and intensions of the EU policy .....	12
3.4. European Directive 2003/54/EC.....	15
3.4.1. Public service obligations and customer protection .....	16
3.4.2. Labeling provision.....	18
3.4.3. Role of regulators .....	19
3.4.4. Generation.....	21
3.4.5. Security of supply .....	22
3.4.6. Organization of access to the system.....	23
3.4.7. Transmission system operation.....	23
3.4.8. Distribution system operation.....	24
3.4.9. Unbundling of transmission and distribution system operators.....	24
3.5. Regulation 1228/2003/EC .....	27
3.5.1. Compensation mechanism.....	27
3.5.2. Charges for access to networks.....	28
3.5.3. Congestion management and the allocation of available capacities of interconnections between national transmission systems.....	29
3.5.4. Provision of information on interconnection capacities.....	30
3.5.5. New interconnectors.....	31
3.6. The ETSO 2005 Cross-Border Tariffication Mechanism.....	32
3.6.1. Identification of the horizontal network (HZ).....	33
3.6.2. The share of transits or cost claim of each country: transit key .....	35
3.6.3. The costs of the horizontal network.....	35
3.6.4. Collection of revenues needed to implement inter-TSO compensation (Financing of the ETSO compensation fund) and settlement.....	35
3.7. Croatian laws in energy (electricity) sector .....	36
3.7.1. Energy Law and its amendments.....	37
3.7.2. Law on Electricity Market.....	38
3.7.3. Law on Regulation of Energy Activities .....	41
3.8. Energy Community Treaty.....	42
3.9. Congestion management.....	51
<b>4. Organization of Energy Markets</b> .....	<b>57</b>
4.1. The system operator.....	57
4.2. The transmission provider .....	58
4.3. The distribution companies .....	59

---

4.4.	The generators .....	59
4.5.	The end users .....	59
4.6.	The suppliers .....	60
4.7.	The market operator .....	60
4.8.	The market models .....	60
4.8.1.	Different pricing schemes .....	62
4.9.	Experiences from the Norwegian/Nordic market .....	62
<b>5.</b>	<b>Organization of Energy Utilities .....</b>	<b>67</b>
5.1.	Ownership structure .....	69
5.2.	Unbundling of activities .....	69
5.3.	Internal company structures .....	71
5.4.	Experiences and trends in the Nordic Countries .....	71
5.5.	Nordic energy statistics .....	73
5.6.	The organization of HEP Group .....	73
<b>6.</b>	<b>Power balance overview .....</b>	<b>80</b>
6.1.	Introduction .....	80
6.2.	Definitions .....	80
6.3.	Methodology for margin assessment .....	83
6.4.	Power Balance results .....	85
6.4.1.	Generating capacity .....	85
6.4.2.	Unavailable capacity and reserves management .....	87
6.4.3.	Reliably Available Capacity .....	90
6.4.4.	Load .....	91
6.5.	Analysis of margins .....	92
6.5.1.	Remaining capacity without exchanges .....	92
6.5.2.	Balance of physical exchanges .....	94
6.5.3.	Remaining capacity with exchanges .....	95
6.6.	Energy balance results .....	97
6.6.1.	Electricity production .....	97
6.6.2.	Electricity consumption .....	101
6.6.3.	Electricity exchanges .....	103
6.7.	Transmission System .....	105
6.7.1.	Main developments .....	105
6.7.2.	Overall view of congestion on interconnection tie lines .....	106
6.7.3.	Main disturbances in the year 2004 .....	111
6.7.4.	Main transmission grid developments in the year 2004 .....	113
6.8.	Experiences from the Nordic countries .....	117
6.8.1.	Energy shortage .....	117
6.8.2.	Capacity shortage .....	118
<b>7.</b>	<b>The situation in SEE region, Hungary, Slovenia, Austria, Italy and Norway .</b>	<b>121</b>
7.1.	Italy	121
7.1.1.	Supply of electricity in Italy .....	125
7.1.2.	Electricity Market Structure .....	127

---

7.1.3.	The architecture of the electricity market.....	130
7.2.	Romania .....	134
7.2.1.	Structure of power sector.....	134
7.2.2.	Electricity market reforms .....	136
7.3.	Bulgaria.....	142
7.3.1.	Structure of power sector.....	143
7.3.2.	Electricity market reforms .....	143
7.4.	Bosnia and Herzegovina.....	149
7.4.1.	Introduction .....	149
7.4.2.	Energy sources.....	150
7.4.3.	Structure of power sector.....	152
7.4.4.	Energy demand.....	155
7.4.5.	Electricity market reform .....	156
7.5.	The Former Yugoslav Republic of Macedonia (FYROM).....	164
7.5.1.	Introduction .....	164
7.5.2.	Energy sources.....	166
7.5.3.	Structure of the power sector .....	169
7.5.4.	Energy demand and tariff system .....	172
7.5.5.	Electricity market reform .....	175
7.6.	Serbia and Montenegro.....	179
7.6.1.	Introduction .....	179
7.6.2.	Energy sources.....	181
7.6.3.	Structure of the power sector .....	183
7.6.4.	Energy demand and tariff system .....	189
7.6.5.	Electricity market reform .....	191
7.7.	Hungary.....	195
7.7.1.	Introduction .....	195
7.7.2.	Electricity market overview .....	197
7.8.	Slovenia .....	201
7.8.1.	Introduction .....	201
7.8.2.	Electricity market overview .....	203
7.9.	Austria .....	207
7.9.1.	Introduction .....	207
7.9.2.	Main electricity market actors.....	208
7.9.3.	Electricity market overview .....	208
7.10.	Norway.....	211
7.10.1.	Introduction .....	211
7.10.2.	Future challenges in the Nord Pool region.....	225
<b>8.</b>	<b>Customer choice of supplier / supplier choice of generator.....</b>	<b>227</b>
8.1.	Some theoretical background on strategy and consumer choice.....	229
8.2.	Conditions for end user competition in SEE .....	233
8.3.	Some experiences from the Norwegian end user market .....	238
<b>9.</b>	<b>Possibilities in competition and trade .....</b>	<b>241</b>
9.1.	Participants in the market.....	243

9.2. Grid access and flow.....	244
9.3. Utilization of the grid .....	246
9.4. Export and import capabilities.....	247
9.5. Liquidity on the market.....	249
<b>10. Development Curricula.....</b>	<b>251</b>
10.1. Organization of modules .....	251
<b>11. References .....</b>	<b>253</b>
<b>12. Enclosures.....</b>	<b>255</b>
<b>13. List of Symbols and Abbreviations.....</b>	<b>257</b>
